

## Black Rock

Black rock is a very easy snorkel location. There are usually tons of people but also lot's of fish. There can be strong currents beyond the rock, so watch the conditions and other snorkelers. You'll probably have to park in the Whalers Village parking lot. It's about \$2.50 per hour but there are lots of coupons available for discounts. Also merchants in Whalers Village will validate your ticket for a few hours of free parking.

Black Rock has a large variety of fish and a large variety of vacationers. Seriously, I don't know what's more entertaining to watch. My wife and I saw a large ray just off of the rock on our first trip here (many) years ago. If you've never snorkeled before, this is a good spot. If you're an experienced snorkeler, this is still fun, but I'd dive some of the other locations first. If you are staying in Ka'anapali, by all means snorkel here.
